Animals and Tourism: Understanding Diverse Relationships (Aspects of Tourism) From Channel View Publications

This book critically examines the many ways in which tourism and animals intersect, whether as tourist attractions, wildlife conservation tools, as travel companions or as meat to be eaten. It aims to make a meaningful contribution to the growing body of knowledge concerning the relationships between animals, tourists and the tourism industry. The chapters are organised into three themes: ethics and welfare; conflict, contradiction and contestation; and shifting relationships. Theoretically informed and empirically rich, the chapters examine topics such as whale watching, animal performances, the objectification and commodification of animals and stakeholder conflict among a range of others. It is hoped that the book will help to highlight key research questions and stimulate other researchers and students to reflect critically on the place of animals within tourism spaces, experiences, practices and structures.

Editorial Review

Review

For academics, activists, policy officials, and the concerned public eager to delve beneath the surface of the popular press banter, this book provides an eclectic set of deeper policy and cultural issues to consider.

(It) offers an excellent introduction to these issues as they stand right now, and an invitation for the reader to consider how to become part of the solution.

(Jamie McMenamin and Lauri Hyers, West Chester University of Pennsylvania, USA *Journeys, Volume 17, Issue 1*)

This important and timely anthology addresses many of the practical and ethical implications of making other animals the subject of our holiday activities. With essays on everything from the most common forms of animal tourism (whale-watching, dolphin tourism, bird watching) to the less well-known (entomotourism, helicopter hunting, meat-tourism), this book will offer the animals studies scholar, conservationist or animal lover much to think about.

(Margo DeMello, Canisius College Anthrozoology Program, USA)

From the ethics of helicopter hunting and the roles of pets in RV parks to the growth of insect-based tourism, *Animals and Tourism: Understanding Diverse Relationships* offers a unique and fascinating window into the recreational use – and misuse – of the creatures we share our world with.

(Hal Herzog, Western Carolina University, USA)
