**Environment** By Peter H. Raven, Linda R. Berg, David M. Hassenzahl

A Journey into Environmental Science

Just as a Global Positioning System helps you steer your car through systems of roads and highways, Environment, 6th Edition helps you navigate the interconnected-environmental systems presented in your environmental science course. By taking you from general principles to specific applications, Environment, 6th Edition helps you direct your path to understanding today's interrelated issues in environmental science. Environment, 6th Edition effectively blends solid scientific content with many examples of problems and solutions empowering you to make informed and responsible choices as you progress on your journey.

On your journey with Environment, 6th Edition you will:

- \* Explore how the various aspects of the environment interact and connect, and thus how changes in one part of the environment can affect other parts.
- \* Reach your own informed decisions on the various perspectives of environmental issues affecting the world today.

Plus, a wealth of resources are available to you online including:

- \* WileyPLUS, a powerful online tool that provides you with an integrated suite of learning resources, including an online version of the text, in one easy-to-use website.
- \* New "Campus EnviroNews" which connect current environment issues to students' lives on campus.
- \* And additional information and resources, including real environmental news video footage from around the world and in your own geographic region and backyard.

From the Back Cover

Help is on the Web!

There is more to Environment, 4e by Raven and Berg than what you see in this text. An enhanced book-specific Web site will help you further examine critical environmental issues. The Web site offers a variety of activities to help you succeed in your course and additional tools that will help you make environmentally responsible choices.

Online resources include:

- Environmental Debates provide the opportunity to learn about two sides of a contentious issue affecting the environment.
- Activity Links identify the most useful Internet links related to the environment and present short exercises that invite you to use these links to increase your understanding of the material.
- Take a Stand activities encourage you to think critically and carefully weigh the short- and long-term advantages and disadvantages of a particular position relating to an environmental situation.
- Research Projects provide you with specific suggestions for topics, reading materials, research techniques, and activities.
- Case Studies highlight key issues in environmental science and lead you to related Web sites for further information.
- How to Make a Difference shows how to get involved in environmental issues and lists environmental organizations that you can join.
- Student Lounge offers valuable study tips and writing tips that will help you get a better grade.
- Quizzes and Essays test your understanding of each chapter with multiple-choice, true/false questions, and short-answer essay questions. You can email your answers and responses directly to your instructor.

### **About the Author**

Peter H. Raven, one of the world's leading botanists, has dedicated nearly three decades to conservation and biodiversity as Director of the Missouri Botanical Garden in St. Louis, where he has cultivated a world-class institution of horticultural display, education, and research. Described by *Time* magazine as "Hero for the Planet," Dr. Raven champions research around the world to preserve endangered species and is a leading advocate for conservation and a sustainable environment.

Dr. Raven is chair of the National Geographic Society's Committee for Research and Exploration and he is President of the American Association for the Advancement of Science. He is the recipient of numerous prizes and awards, including Japan's International Prize for Biology, the Environmental Prize of the Institute de la Vie, the Volvo Environment Prize, the Tyler Prize for Environment Achievement, and the Sasakawa Environment Prize. He also has held Guggenheim and MacArthur fellowships.

Dr. Raven received his Ph.D. from the University of California, Los Angeles, after completing his undergraduate work at the University of California, Berkeley.

Linda R. Berg is an award-winning teacher and textbook author. She received a B.S. in science education, M.S. in botany, and Ph.D. in plant physiology from the University of Maryland. Her research focused on the

evolutionary implications of steroid biosynthetic pathways in various organisms.

Dr. Berg taught at the University of Maryland-College Park, for 17 years, and is presently an Adjunct Professor at St. Petersburg Junior College in Florida. She has taught introductory courses in environmental science, biology, and botany to thousands of students since 1972. At the University of Maryland, she received numerous teaching and service awards. Dr. Berg is also the recipient of many national and regional awards, including the National Science Teachers Association Award for Innovations in College Teaching, the Nation's Capital Area Disabled Student Services Award, and the Washington Academy of Sciences Award in University Science Teaching.

During her career as a professional science writer, Dr. Berg has authored or coauthored several leading college science textbooks. Her writing reflects her teaching style and love of science.

## **Users Review**

### **From reader reviews:**

#### **Darren Custer:**

Have you spare time for a day? What do you do when you have a lot more or little spare time? Yeah, you can choose the suitable activity to get spend your time. Any person spent their own spare time to take a move, shopping, or went to often the Mall. How about open or maybe read a book titled Environment? Maybe it is to become best activity for you. You already know beside you can spend your time together with your favorite's book, you can better than before. Do you agree with it is opinion or you have different opinion?

#### **Gina Hill:**

This Environment are reliable for you who want to become a successful person, why. The reason of this Environment can be on the list of great books you must have will be giving you more than just simple studying food but feed a person with information that maybe will shock your earlier knowledge. This book will be handy, you can bring it everywhere you go and whenever your conditions in the e-book and printed ones. Beside that this Environment giving you an enormous of experience like rich vocabulary, giving you trial run of critical thinking that we realize it useful in your day action. So , let's have it and luxuriate in reading.

#### **Dale Moore:**

As we know that book is vital thing to add our know-how for everything. By a e-book we can know everything we want. A book is a range of written, printed, illustrated or perhaps blank sheet. Every year had been exactly added. This guide Environment was filled about science. Spend your free time to add your knowledge about your science competence. Some people has several feel when they reading a new book. If you know how big benefit from a book, you can sense enjoy to read a book. In the modern era like at this point, many ways to get book that you just wanted.

**Kristen Hancock:**

Do you like reading a publication? Confuse to looking for your favorite book? Or your book was rare? Why so many problem for the book? But just about any people feel that they enjoy intended for reading. Some people likes examining, not only science book and also novel and Environment or perhaps others sources were given expertise for you. After you know how the fantastic a book, you feel desire to read more and more. Science publication was created for teacher or even students especially. Those books are helping them to include their knowledge. In some other case, beside science reserve, any other book likes Environment to make your spare time more colorful. Many types of book like this one.
