Editorial Review

Amazon.com Review

If certain movies can earn "two hanky" ratings for their ability to induce tears, Sal Severe's *How to Behave So Your Preschooler Will, Too!* easily deserves a "two highlighter" rating for its bountiful collection of noteworthy parenting strategies. From the hilarious opening anecdote about his 4-year-old's verbal attack on a waiter to his reassuring final chapter ("From Cookies to Car Keys"), Severe's candor, practical advice, and savvy long-term vision offer quick relief for overwhelmed parents of 3- to 6-year-olds. The moral of this school psychologist's story: Language counts; use it wisely. Yelling, spanking, and knee-jerk time-outs do little to correct misconduct, and may promote more misbehavior. Instead, Severe champions positive, age-appropriate phrases to curb the whining, parry the potty words, and morph fights into sharing sessions. He shows how to formulate meaningful consequences for little rule breakers and how to wield the parents' ultimate "better behavior" tool: consistency. Literally hundreds of clever catch phrases (void of the word *don't*), sample dialogues, anger-management techniques, written exercises, and tips on tweaking inadequate corrective measures flow throughout Severe's 25 standalone chapters. An ample book list that offers suggested parent/child reading on dozens of topics nicely caps off this exemplary guide. --*Liane Emory Thomas*

From Publishers Weekly

Severe, author of the bestselling *How to Behave so Your Children Will, Too!*, focuses on children ages three to six. Parents know all too well that toddlers can be particularly difficult. Sometimes their inability to speak makes it hard to figure out what they want; other children have demanding temperaments and still other kids haven't been taught the "right" behavior for a particular situation. In a calm and soothing manner, Severe offers coping strategies for parents with the most common dilemmas, including tantrums, toilet training, sibling rivalry and more. The author discusses the circumstances, offers specific suggestions for parents and provides a summary chart of what not to do and how kids can get the wrong message by following their parents. For example, when a parent watches TV several hours a day, children learn that they can do the same, or when a parent yells obscenities at a driver who takes a parking spot, the child learns that he or she can also be verbally offensive. Parents can counteract their own bad behavior, counsels Severe, by apologizing for using bad language or taking responsibility for being angry and trying to be polite. The book is particularly helpful for first-time parents, who will find Severe's step-by-step prescriptions what to do when a toddler has a tantrum or how to handle time-outs invaluable.
