### Editorial Review

From School Library Journal

Grade 5-8—Nick Simple's life is anything but simple. His parents have moved to Australia, leaving him in the care of his incompetent older brother who is trying to make a living as a private detective and changes the family name. They are visited by a dwarf who leaves a package with them for safekeeping and later turns up dead. Set in England and filled with a variety of colorful characters, the plot reads like a 1940s P.I. movie. Like Horowitz's "Alex Rider" series (Philomel), the teen protagonist relies on his wits to thwart the enemy. Short chapters, with a conflict in each one, will appeal to reluctant readers.—*Kim Carlson, Monticello High School, IA*

Gr. 4-8. Thirteen-year-old Nick is the younger (and brighter) half of the Diamond Brothers, the world's worst detective agency. Dwarf Johnny Naples becomes their client, entrusting the two with a mysterious package (a box of Malteser chocolates) just before he is killed, leaving Tim Diamond, literally, holding the gun. With Tim in jail, Nick is forced to solve the case--hopefully before someone murders him, too. Originally published in Britain (where it was also released in film and television versions), this pays homage to the "hard-boiled-detective-with-a-snappy-comeback" genre and to *The Maltese Falcon* book and film that the title spoofs. Horowitz's classic cast of quirky villains-- including The Fat Man, Gott and Himmel, Beatrice von Falkenberg, and the Professor--and nonstop action and clever, deadpan humor ensure the novel will be a popular choice. *Kay Weisman*
