Editorial Review

From the Publisher
Why this book is unique:

SAPCOOKOOK readers have a need for information they can use *right now*. And our series of SAP interview questions books is an answer to that need for instant information. Our books are written by SAP practitioners and expert authors who have varied and vast experiences in the world of information technology.

Rather than focusing on comprehensive, textbook-sized or voluminous reference guides, SAPCOOKBOOK includes only the information that can be used immediately by the reader in their job search or SAP career. In this regard, the books are much shorter, and this is the overwhelming preference of our readers. Rather than providing **more information**, our books focus on providing the *right information*. SAPCOOKBOOK Interview Question books can also be thought of as "cook books" in the traditional sense in that they provide the reader information in a very concise and useable manner, not unlike a recipe. In this way we hope we serve our readers by saving them time - by helping or readers understand what is important, and what they can safely ignore.

For instance, you might find our books particularly useful for gaining knowledge and understanding of a completely unfamiliar area of SAP. By skimming the table of contents and index, you may quickly understand the most important aspects of a particular area, and also have access to the accumulated knowledge of our expert authors. It is the unique "Question and Answer" nature of the books that make them so valuable.

It can be said that, "If you can't find the right answers, maybe you're not asking the right questions..." Our books not only help the reader understand the answers, by providing explanations where applicable but also provide the right questions. Our books also include transaction code listing and table references which set them apart - and keep them close at hand at work rather than collecting dust on the shelf.

Finally, SAPCOOKBOOK books are published with several goals in mind which we believe set them apart from other sources of information. Our mission is to provide the reader with timely, useful information that will increase their technical literacy, increase the awareness of careers in information technology, and challenge our readers to question the status quo. All of our authors are SAP professionals - and we know that our books offer a great deal of value to our readers - we hope you find them as useful as we do!

Users Review

From reader reviews:

Marie Williams:

The book SAP ABAP Certification Review: SAP ABAP Interview Questions, Answers, And Explanations give you a sense of feeling enjoy for your spare time. You can utilize to make your capable more increase. Book can being your best friend when you getting strain or having big problem with the subject.
