**Size 12 Is Not Fat: A Heather Wells Mystery (Heather Wells Mysteries)** By Meg Cabot

Heather Wells Rocks!

Or, at least, she *did*. That was before she left the pop-idol life behind after she gained a dress size or two -- and lost a boyfriend, a recording contract, and her life savings (when Mom took the money and ran off to Argentina). Now that the glamour and glory days of endless mall appearances are in the past, Heather's perfectly happy with her new size 12 shape (the average for the American woman!) and her new job as an assistant dorm director at one of New York's top colleges. That is, until the dead body of a female student from Heather's residence hall is discovered at the bottom of an elevator shaft.

The cops and the college president are ready to chalk the death off as an accident, the result of reckless youthful mischief. But Heather *knows* teenage girls . . . and girls *do not* elevator surf. Yet no one wants to listen -- not the police, her colleagues, or the P.I. who owns the brownstone where she lives -- even when more students start turning up dead in equally ordinary and subtly sinister ways. So Heather makes the decision to take on yet another new career: as spunky girl detective!

But her new job comes with few benefits, no cheering crowds, and *lots* of liabilities, some of them potentially fatal. And nothing ticks off a killer more than a portly ex-pop star who's sticking her nose where it doesn't belong . . .

### Editorial Review

From Publishers Weekly

*Starred Review.* Bag the tiara and get out the gun: Heather Wells, former teen idol, turns detective in the cute debut of a new mystery series from bestseller Cabot (*The Princess Project* and other titles in her Princess Diaries series). After the 20-something Heather's rocker boyfriend dumps her, and her mother and manager flee with her earnings, she becomes an assistant director of an undergraduate residence hall at Manhattan's New York College (read: NYU) in hopes of free tuition. When students start to die mysteriously while "elevator surfing" in the building, weight-conscious, romance-obsessed Heather goes on a crazed hunt to uncover the truth—with an unwavering sense of style. As Magda, Heather's dorm cashier friend, says: "Even if the rest of your life is going down the toilet... at least your toes can still look pretty." Cabot delivers Heather's amateur sleuthing adventures in a rapid-fire narrative that may leave some readers begging for time-outs to control sudden laughing fits.

At 28, former teen-pop-star Heather Wells feels as though she has lost everything: her family and fortune (her mom fled the country with Heather's earnings), her recording contract, her slender waistline, and her fiance, Jordan, a philandering, boy-band singer. Then Jordan's brother, Cooper, a dreamy private investigator and family black sheep, offers Heather room and board in exchange for clerical work, and she finds an additional job as a residence-hall director at a nearby Greenwich Village university. After several female students turn up dead at the dorm, Heather takes on her own stealthy investigation and finds herself the target of the killer. In the first title in her Heather Wells series, Cabot combines a fairly straightforward mystery with a single-girl-in-the-city plot in which Heather triumphs over cheating guys, bad luck, and a fattist society. Most of the characters are two-dimensional, but Heather's strong, amusing voice, the plot twists, and the possibility of romance will draw mystery and chick-lit readers alike. *Gillian Engberg*

Review

Meg Cabot is one of the most colourful writers on the market right now. In her latest mystery novel *Size 12 is not fat*, Meg takes three very unlikely subjects: pop stars, dorm directors, and detectives, and blends them into one very intriguing book. Laugh-out-loud funny, it should be read while eating a chocolate bar. (Townsville Bulletin)

### Users Review

From reader reviews:

**Jason Carr:**

The actual book *Size 12 Is Not Fat: A Heather Wells Mystery (Heather Wells Mysteries)* will bring you to definitely the new experience of reading any book.
