Computational Intelligence for Missing Data Imputation, Estimation, and Management: Knowledge Optimization Techniques

By Tshilidzi Marwala

Computational Intelligence for Missing Data Imputation, Estimation, and Management: Knowledge Optimization Techniques By Tshilidzi Marwala

In recent years, the issue of missing data imputation has been extensively explored in information engineering.

Computational Intelligence for Missing Data Imputation, Estimation, and Management: Knowledge Optimization Techniques presents methods and technologies in estimation of missing values given the observed data. Providing a defining body of research valuable to those involved in the field of study, this book covers techniques such as radial basis functions, support vector machines, and principal component analysis.

Editorial Review

Users Review

From reader reviews:

Lucia Morrone:

This book untitled Computational Intelligence for Missing Data Imputation, Estimation, and Management: Knowledge Optimization Techniques to be one of several books in which best seller in this year, that's because when you read this reserve you can get a lot of benefit into it. You will easily to buy this book in the book retail outlet or you can order it by way of online. The publisher of the book sells the e-book too. It makes you more readily to read this book, as you can read this book in your Touch screen phone. So there is no reason to you to past this publication from your list.

Robert Young:

Reading a publication tends to be new life style in this era globalization. With studying you can get a lot of information that could give you benefit in your life. Having book everyone in this world can share their idea. Publications can also inspire a lot of people. A lot of author can inspire their very own reader with their story or their experience. Not only the storyplot that share in the publications. But also they write about the ability about something that you need case in point. How to get the good score toefl, or how to teach your children, there are many kinds of book that exist now. The authors on this planet always try to improve their proficiency in writing, they also doing some research before they write with their book. One of them is this Computational Intelligence for Missing Data Imputation, Estimation, and Management: Knowledge Optimization Techniques.

Joyce Hazel:

Reading can called mind hangout, why? Because when you are reading a book specifically book entitled Computational Intelligence for Missing Data Imputation, Estimation, and Management: Knowledge Optimization Techniques your thoughts will drift away trough every dimension, wandering in each aspect that maybe unidentified for but surely can be your mind friends. Imaging just about every word written in a reserve then become one form conclusion and explanation that will maybe you never get prior to. The Computational Intelligence for Missing Data Imputation, Estimation, and Management: Knowledge Optimization Techniques giving you an additional experience more than blown away your head but also giving you useful information for your better life with this era. So now let us demonstrate the relaxing pattern at this point is your body and mind will probably be pleased when you are finished looking at it, like winning an activity. Do you want to try this extraordinary wasting spare time activity?

Emily Ferrell:

Do you have something that that suits you such as book? The e-book lovers usually prefer to pick book like comic, short story and the biggest an example may be novel. Now, why not trying Computational Intelligence for Missing Data Imputation, Estimation, and Management: Knowledge Optimization Techniques that give your fun preference will be satisfied by means of reading this book. Reading habit all over the world can be said as the means for people to know world better then how they react when it comes to the world. It can't be mentioned constantly that reading behavior only for the geeky person but for all of you who wants to end up being success person. So , for all you who want to start reading as your good habit, you may pick Computational Intelligence for Missing Data Imputation, Estimation, and Management: Knowledge Optimization Techniques become your current starter.
