***Evidence-Based Design: A Process for Research and Writing** serves as a guide to help students conceptualize and formulate their design ideas and then to evaluate and test those ideas through a succinct, organized process. The result is the culmination of a comprehensive document that articulates a design concept and justifies key design attributes. Step-by-step, students are guided through the process of writing a robust, research-based document geared towards empirical design research. From developing a critical position to performing a thorough review of the literature to providing an overview of common research methods, this text is a perfect guide for students producing an evidence-based thesis or dissertation.*
