Editorial Review

Amazon.com Review

Owlknight follows Mercedes Lackey and Larry Dixon's two earlier novels about Darian Firkin, *Owlflight* and *Owlsight*. By now the boy who ran from barbarian invaders is both knight of Valdemar and a master mage; he is governor of a small province and in love with Keisha who returns his feelings, but he still has problems and responsibilities. For one thing, he has never solved the mystery of what happened to his parents. For another, Keisha refuses to marry him lest his role as governor and hers of healer come into conflict--and there are still barbarians beyond the border who threaten one day to come back.

The story of how these problems are all resolved is told in a quiet tone unusual in this sort of epic fantasy. Darian has as much to look within for the solution to these issues as to struggle in the outside world. The woodland journey during which he does this is much of the time a celebration of the renewal of the human soul by the natural world.

Lackey and Dixon have found a courtly, meditative way of telling an attractively simple story. Darian's growth to final maturity is inevitable, but still fascinating. --Roz Kaveney, *Amazon.co.uk*

From Publishers Weekly

The latest collaboration between the creator of the Valdemar universe and her husband concludes the trilogy begun with *Owlflight* and *Owlsight*. Grown to maturity in the multispecies woodland settlement of k'Valdemar Vale, Darian Firkin has become a knight as well as a Master Mage to increase both his influence with neighboring tribes and his prestige within Valdemar. Darian's work in government gives way to travel when he finds hints that his parents, whom he believed dead, may be alive in the North. He sets off to discover their fate. Keisha, Darian's lover and a town healer, joins him, along with a crew of companions, but she remains of two minds about the future of their relationship because of her belief that marriage demands a woman's subordination. More action is provided by the lovers' encounters with various threats, including with a marauding tribe, the Wolverines, who are both vicious and intelligent. Valdemar is now an immensely well-developed world, and the book is full of dry wit and rich detail about, say, the bathing habits of gryphons and the sarcastic, telepathic dyheli, deerlike sapient beings. The effect is marred by too much New Age sensitivity and didactic feminism, however, making the novel cloying for all but Valdemar devotees. (Oct.)

From Library Journal

When he discovers a clue that might lead him to the whereabouts of his missing parents, Master Mage Darien travels with the apprentice Herald Shandi and several allies to the barbarian lands far to the north, where he finds his diplomatic and magical skills tested to their fullest. Continuing the tale begun in *Owlflight* and *Owlsight*, Lackey's latest novel set in the world of Valdemar exhibits the author's characteristic attention to detail and character development. This welcome addition to the series belongs in most fantasy collections. Copyright 1999 Reed Business Information, Inc.

Users Review

From reader reviews:

Ian Gardner:

Why don't make it to become your habit? Right now, try to prepare your time to do the important take action, like looking for your favorite publication and reading a e-book.
