## **Editorial Review**

### **About the Author**

#### **Joseph A. Mason**

Professor of Geography, University of Wisconsin-Madison

Joseph A. Mason has published dozens of publications and reports both as a faculty member and as a member of Nebraska's Conservation and Survey Division. An active teacher, he has taught a broad array of courses at the college and graduate level. Dr. Mason's research centers on eolian and hillslope geomorphology; loess stratigraphy/ sedimentology; pedology and soil geomorphology; paleopedology; Quaternary landscape evolution; and geomorphic response to Quaternary climate change, with a geographic focus on the Great Plains, northern China, the central Rocky Mountains, and the Upper Mississippi Valley.

#### **James E. Burt**

Professor of Geography, University of Wisconsin-Madison

The author of two textbooks--Understanding Weather and Climate, Sixth Edition (2012), and Elementary Statistics for Geographers, Third Edition (2009)--James E. Burt is the recipient of numerous awards for excellence in teaching, textbook authorship, and courseware development. Dr. Burt's graduate training was in climatology and quantitative spatial analysis, and he has long had research interests located at the intersection of physical geography and geographic information science. His current research projects revolve around expert systems modeling of the physical environment and knowledge discovery methods for geospatial data.

#### **Peter O. Muller**

Professor of Geography and Regional Studies, University of Miami

Peter O. Muller's many works include The World Today: Concepts and Regions in Geography, Sixth Edition (2012); Geography: Realms, Regions, and Concepts, Fifteenth Edition (2011); and Economic Geography, Third Edition (1998). Dr. Muller's articles have appeared in numerous journals including The Professional Geographer, The Annals of the American Academy of Political and Social Science, and American Quarterly. His research interests focus on the changing geography of the United States, particularly new forms of suburbanization. He is coeditor of the journal Urban Geography, and has also served as academic production consultant for the original Annenberg/Corporation of Public Broadcasting video series, The Power of Place.

#### **H. J. de Blij (deceased)**

John A. Hannah Professor of Geography, Michigan State University

An undergraduate course in physical geography was Harm de Blij's eye-opener. As a graduate student, he conducted field research in the Swaziland (Africa) Lowveld, working on the hypothesis that this 120-kilometer-long, steep-sided valley might be a southern spur of the great East African rift valley system (PhD, Northwestern University). Since then he has addressed topics ranging from continental drift to climate change and from heat summation in viticulture to rogue waves in oceans. His more than thirty books include technical, text, and trade titles and have been translated into Chinese, Russian, Italian, and other languages. In the media he vigorously promoted geography as indispensable to education, decision-making, and domestic and foreign policy formulation.

## **Users Review**

### **From reader reviews:**

#### **Araceli Burns:**

As people who live in often the modest era should be up-date about what going on or info even knowledge to make these people keep up with the era and that is always change and make progress. Some of you maybe will probably update themselves by examining books. It is a good choice for you but the problems coming to a person is you don't know which you should start with. This Physical Geography: The Global Environment is our recommendation to cause you to keep up with the world. Why, since this book serves what you want and want in this era.

#### **Geraldine Matson:**

People live in this new day of lifestyle always try to and must have the time or they will get lot of stress from both daily life and work. So , whenever we ask do people have free time, we will say absolutely of course. People is human not really a huge robot. Then we inquire again, what kind of activity have you got when the spare time coming to an individual of course your answer may unlimited right. Then do you try this one, reading books. It can be your alternative within spending your spare time, the particular book you have read is usually Physical Geography: The Global Environment.

#### **Mary Flynn:**

In this age globalization it is important to someone to obtain information. The information will make a professional understand the condition of the world. The fitness of the world makes the information simpler to share. You can find a lot of references to get information example: internet, magazine, book, and soon. You will observe that now, a lot of publisher which print many kinds of book. The book that recommended to your account is Physical Geography: The Global Environment this guide consist a lot of the information on the condition of this world now. That book was represented so why is the world has grown up. The language styles that writer value to explain it is easy to understand. The actual writer made some exploration when he makes this book. Here is why this book ideal all of you.

#### **Karl Wolfe:**

Beside that Physical Geography: The Global Environment in your phone, it might give you a way to get more close to the new knowledge or details. The information and the knowledge you can got here is fresh from the oven so don't end up being worry if you feel like an aged people live in narrow town. It is good thing to have Physical Geography: The Global Environment because this book offers for you readable information. Do you occasionally have book but you rarely get what it's facts concerning. Oh come on, that will not end up to happen if you have this with your hand. The Enjoyable arrangement here cannot be questionable, similar to treasuring beautiful island. So do you still want to miss that? Find this book as well as read it from now!
