Algebra and Trigonometry: Graphs and Models (5th Edition) By Marvin L. Bittinger, Judith A. Beecher, David J. Ellenbogen, Judith A. Penna

The **Graphs and Models** series by Bittinger, Beecher, Ellenbogen, and Penna is known for helping students “see the math” through its focus on visualization and technology. These books continue to maintain the features that have helped students succeed for years: focus on functions, visual emphasis, side-by-side algebraic and graphical solutions, and real-data applications.

This package contains:

- Algebra and Trigonometry: Graphs and Models, Fifth Edition

Editorial Review

About the Author

Marvin Bittinger For over thirty-eight years, Professor Marvin L. Bittinger has been teaching math at the university level. Since 1968, he has been employed at Indiana University - Purdue University Indianapolis, and is now professor emeritus of mathematics education. Professor Bittinger has authored over 190 publications on topics ranging from basic mathematics to algebra and trigonometry to applied calculus. He received his BA in mathematics from Manchester College and his PhD in mathematics education from Purdue University. Special honors include Distinguished Visiting Professor at the United States Air Force Academy and his election to the Manchester College Board of Trustees from 1992 to 1999. His hobbies include hiking in Utah, baseball, golf, and bowling. Professor Bittinger has also had the privilege of speaking at many mathematics conventions, most recently giving a lecture entitled "Baseball and Mathematics." In addition, he also has an interest in philosophy and theology, in particular, apologetics. Professor Bittinger currently lives in Carmel, Indiana with his wife Elaine. He has two grown and married sons, Lowell and Chris, and four granddaughters. David Ellenbogen David Ellenbogen has taught math at the college level for twenty-two years, spending most of that time in the Massachusetts and Vermont community college systems, where he has served on both curriculum and developmental math committees. He has also taught at St. Michael's College and The University of Vermont. Professor Ellenbogen has been active in the Mathematical Association of Two Year Colleges since 1985, having served on its Developmental Mathematics Committee and as a delegate, and has been a member of the Mathematical Association of America since 1979. He has authored dozens of publications on topics ranging from prealgebra to calculus and has delivered lectures at numerous conferences on the use of language in mathematics. Professor Ellenbogen received his BA in mathematics from Bates College and his MA in community college mathematics education from The University of Massachusetts at Amherst. A co-founder of the Colchester Vermont Recycling Program, Professor Ellenbogen has a deep love for the environment and the outdoors, especially in his home state of Vermont. In his spare time, he enjoys playing keyboard in the band Soularium, volunteering as a community mentor, hiking, biking, and skiing. He has two sons, Monroe and Zack.

Judy Beecher has an undergraduate degree in mathematics from Indiana University and a graduate degree in mathematics from Purdue University. She has taught at both the high school and college levels with many years of developmental math and precalculus teaching experience at Indiana University - Purdue University Indianapolis. In addition to her career in textbook publishing, she spends time traveling, enjoying her grandchildren, and promoting charity projects for a children's camp. Judy Penna received her undergraduate degree in mathematics from Kansas State University and her graduate degree in mathematics from the University of Illinois. Since then, she has taught at Indiana University - Purdue University Indianapolis and at Butler University, and continues to focus on writing quality textbooks for undergraduate mathematics students. In her free time she likes to travel, read, knit and spend time with her children. Marvin Bittinger For over thirty-eight years, Professor Marvin L. Users Review

From reader reviews:

Thomas Jones:

What do you concentrate on book? It is just for students as they are still students or the idea for all people in the world, the actual best subject for that? Just simply you can be answered for that concern above. Every person has distinct personality and hobby for every single other. Don't to be forced someone or something that they don't wish do that. You must know how great and important the book Algebra and Trigonometry: Graphs and Models (5th Edition). All type of book would you see on many resources. You can look for the internet solutions or other social media.

Roxanne Harrelson:

Nowadays reading books be a little more than want or need but also get a life style. This reading habit give you lot of advantages. Advantages you got of course the knowledge your information inside the book in which improve your knowledge and information. The info you get based on what kind of book you read, if you want drive more knowledge just go with training books but if you want truly feel happy read one along with theme for entertaining for instance comic or novel. Typically the Algebra and Trigonometry: Graphs and Models (5th Edition) is kind of book which is giving the reader unpredictable experience.

Nicole Reagan:

This Algebra and Trigonometry: Graphs and Models (5th Edition) tend to be reliable for you who want to certainly be a successful person, why. The reason why of this Algebra and Trigonometry: Graphs and Models (5th Edition) can be one of several great books you must have is giving you more than just simple looking at food but feed a person with information that possibly will shock your before knowledge. This book is definitely handy, you can bring it all over the place and whenever your conditions in e-book and printed ones. Beside that this Algebra and Trigonometry: Graphs and Models (5th Edition) giving you an enormous of experience for instance rich vocabulary, giving you trial run of critical thinking that we realize it useful in your day task. So , let's have it and revel in reading.

Lee Fuller:

Do you have something that you prefer such as book? The reserve lovers usually prefer to decide on book like comic, limited story and the biggest one is novel. Now, why not striving Algebra and Trigonometry: Graphs and Models (5th Edition) that give your entertainment preference will be satisfied by means of reading this book. Reading behavior all over the world can be said as the means for people to know world considerably better then how they react towards the world. It can't be claimed constantly that reading practice only for the geeky individual but for all of you who wants to always be success person. So , for all of you who want to start examining as your good habit, you are able to pick Algebra and Trigonometry:

Graphs and Models (5th Edition) become your own personal starter.
