Editorial Review

Review

This is an excellent, practical, clinical reference with quality images to enhance learning. It is appropriate for general practitioners, veterinary students, and residents. The new edition addresses several key updates in small animal cardiovascular medicine and should be a welcome addition to any reference library. (4 stars)
?Maureen McMichael, DVM, DACVECC, University of Illinois College of Veterinary Medicine, *Doody's Review Service*

Praise for the Previous Edition

Excellently achieves the author's stated goal of creating a practical clinical reference that will also provide a broad overview of small animal cardiovascular medicine...strikes a great balance between comprehensiveness and usefulness in everyday practice...great value for practicing veterinarians and veterinary students.

?J.A.V.M.A.

Whether you are a clinical student, the most generalist of general practitioners or a bit of a cardiologist, this has something to offer all

?The Veterinary Record

A tremendous reference for students and small animal practitioners alike...clearly organized and presented in a practical fashion...useful in an emergency situation as well as day-to-day practice

?ALN Magazine

From the Back Cover

Now with revised text and references (2011), this book aims to provide a general overview of dermatology of the dog and cat in a case based format. It contains over 200 clinical cases and self-assessment problems reviewing the most common skin diseases encountered in clinical practice, plus some more obscure diseases that a veterinarian will encounter only occasionally or rarely.

The cases appear randomly to reflect real life practice and vary in complexity. Coverage ranges from the more easily treatable to the most difficult and serious cases. The self-assessment format, featuring questions, top quality colour illustrations and detailed answers and explanations is designed to educate, not just to test. It appeals to all those dealing with skin diseases in small animals, veterinary practitioners and students, veterinary nurses and technicians.
