## PHP 5 Social Networking By Michael Peacock

This book is a fast-paced tutorial focusing on creating a Social Networking framework through an ongoing case study. It presents a lot of real-world code, with comprehensive explanation and discussion. With each chapter, the Social Networking framework is extended, with more functionality being added as we progress through the book. This book is primarily aimed at PHP developers, but is suitable for any web developers looking to expand their knowledge and understanding of Social Networking concepts. Intermediate knowledge of PHP and object-oriented programming is assumed, along with a basic knowledge of MySQL.

### Editorial Review

#### About the Author

Michael Peacock is a web developer from Newcastle, UK and has a degree in Software Engineering from the University of Durham. After meeting his business partner at Durham, he co-founded Peacock Carter, a Newcastle based creative consultancy specializing in web design, web development and corporate identity. Michael loves working on web related projects. When he is not working on client projects, he is often tinkering with a web app of his own. He has been involved with a number of books, having written two books himself (and working on his third): Selling online with Drupal e-Commerce Packt, and Building websites with TYPO3 Packt. He has also done technical reviews of two other books: Mobile Web Development Packt, and Drupal Education & E-Learning Packt. You can follow Michael on Twitter.
