Editorial Review

From the Back Cover

This timely update of the popular *Environmental Science Activities Kit* includes more than 35 lessons for middle and high school science teachers on the most compelling and relevant environmental topics, such as global warming, food and water production, alternative energy sources, endangered species, land-use issues, and many more.

Each of the lessons includes the following information for the teacher:

- A topic summary and introduction
- Alignment to national science content standards
- List of materials and guidelines for teacher preparation
- Step-by-step teaching directions
- Discussion questions, extensions, and resources

Plus dozens of reproducible pages of background information and ready-to-use student worksheets.

Praise for The *Environmental Science Activities Kit*

"Through this engaging and effective activity guide, Michael Roa has, once again, made a significant and lasting contribution to environmental education."

—**Dr. James Marshall**, department of curriculum and instruction, California State University, Fresno, California

"The *Environmental Science Activities Kit* is all about activities that light the fuse of students' curiosity and engage their hearts and minds to participate in the movement toward a sustainable future."

—**Frank R. Schiavo**, professor emeritus, San Jose State University, San Jose, California

"Revised and expanded, this new edition of *Environmental Science Activities Kit* is a must-have resource for 7-12th grade teachers interested in integrating environmental topics into core content areas."

—**Jennifer Rigby**, director, Acorn Naturalists

"The collection of environmental science activities in the *Environmental Science Activities Kit* are clearly connected to the National Science Education Standards, and it would make an excellent supplement to a general science curriculum."

—**Tom Lough**, professor of science education, Murray State University, Murray, Kentucky

About the Author

Michael L. Roa was a classroom teacher and school administrator for 38 years and is currently the science education specialist for the Sonoma County Office of Education in California. He is the author of several books on environmental science and is a frequent presenter at local, state, and national science conventions.

Users Review

From reader reviews:

Pedro Engle:

This book untitled Environmental Science Activities Kit: Ready-to-Use Lessons, Labs, and Worksheets for Grades 7-12 to be one of several books which best seller in this year, here is because when you read this reserve you can get a lot of benefit in it. You will easily to buy this book in the book shop or you can order it via online. The publisher with this book sells the e-book too. It makes you easier to read this book, because you can read this book in your Cell phone. So there is no reason for your requirements to past this book from your list.

Jeffery Fulmer:

The book untitled Environmental Science Activities Kit: Ready-to-Use Lessons, Labs, and Worksheets for Grades 7-12 is the e-book that recommended to you to study. You can see the quality of the reserve content that will be shown to anyone. The language that writer use to explained their way of doing something is easily to understand. The author was did a lot of exploration when write the book, therefore the information that they share for your requirements is absolutely accurate. You also will get the e-book of Environmental Science Activities Kit: Ready-to-Use Lessons, Labs, and Worksheets for Grades 7-12 from the publisher to make you a lot more enjoy free time.

Hector Medlin:

Spent a free time for you to be fun activity to perform! A lot of people spent their sparetime with their family, or their friends. Usually they performing activity like watching television, gonna beach, or picnic within the park. They actually doing ditto every week. Do you feel it? Do you want to something different to fill your free time/ holiday? Can be reading a book could be option to fill your free time/ holiday. The first thing that you'll ask may be what kinds of e-book that you should read. If you want to try look for book, may be the guide untitled Environmental Science Activities Kit: Ready-to-Use Lessons, Labs, and Worksheets for Grades 7-12 can be fine book to read. May be it can be best activity to you.

Terry Speller:

As we know that book is important thing to add our knowledge for everything. By a book we can know everything we want. A book is a group of written, printed, illustrated or blank sheet. Every year has been exactly added. This book Environmental Science Activities Kit: Ready-to-Use Lessons, Labs, and Worksheets for Grades 7-12 was filled in relation to science. Spend your time to add your knowledge about your scientific disciplines competence. Some people has different feel when they reading any book. If you know how big advantage of a book, you can feel enjoy to read a book. In the modern era like now, many ways to get book that you wanted.
