**Schleiermacher: On Religion: Speeches to its Cultured Despisers (Cambridge Texts in the History of Philosophy)** By Friedrich Schleiermacher

Schleiermacher's *On Religion: Speeches to its Cultured Despisers* is a classic of modern Protestant religious thought that powerfully displays the tensions between the Romantic and Enlightenment accounts of religion. This edition presents the original 1799 text in English for the first time. Richard Crouter's introduction places the work in the milieu of early German Romanticism, Kant criticism, the revival of Spinoza and Plato studies, and theories of literary criticism and of the physical sciences. This fully annotated edition also contains a chronology and notes on further reading.
