

# Derrida for Architects (Thinkers for Architects)

*By Richard Coyne*

## **Derrida for Architects (Thinkers for Architects) By Richard Coyne**

Looking afresh at the implications of Jacques Derrida's thinking for architecture, this book simplifies his ideas in a clear, concise way. Derrida's treatment of key philosophical texts has been labelled as "deconstruction," a term that resonates with architecture. Although his main focus is language, his thinking has been applied by architectural theorists widely.

As well as a review of Derrida's interaction with architecture, this book is also a careful consideration of the implications of his thinking, particularly on the way architecture is practiced.

## Editorial Review

Review

**"Derrida for Architects is to be celebrated for maintaining that most important and productive relationship between Derrida and architecture" – *Planning Perspectives***

**"This book and series will then appeal to the architect, student, and academic looking for connections between this great mind and the built environment. That his field dealt mostly in intangibles only makes one realize how powerful an idea can be, how his thinking and philosophy have and continue to influence so many, architects and all." – Sean Ruthen, *Spacing Magazine***

About the Author

**Richard Coyne** is Professor and Head of the School of Arts, Culture and Environment at the University of Edinburgh. He is an architect researching and teaching in architectural theory, design theory and digital media. He is author of four books with MIT Press: *Designing Information Technology in the Postmodern Age* (1995), *Technoromanticism* (1999), *Cornucopia Limited* (2005), and *The Tuning of Place* (2010). With Adrian Snodgrass he co-authored *Interpretation in Architecture: Design as a Way of Thinking* (Routledge, 2006).

## Users Review

**From reader reviews:**

**Hans Diaz:**

Book is to be different for each and every grade. Book for children right up until adult are different content. As we know that book is very important normally. The book Derrida for Architects (Thinkers for Architects) was making you to know about other knowledge and of course you can take more information. It is rather advantages for you. The reserve Derrida for Architects (Thinkers for Architects) is not only giving you much more new information but also to be your friend when you feel bored. You can spend your own spend time to read your reserve. Try to make relationship together with the book Derrida for Architects (Thinkers for Architects). You never experience lose out for everything when you read some books.

**Edward Torres:**

Reading a e-book can be one of a lot of exercise that everyone in the world adores. Do you like reading book therefore. There are a lot of reasons why people like it. First reading a e-book will give you a lot of new info. When you read a e-book you will get new information because book is one of numerous ways to share the information or maybe their idea. Second, looking at a book will make an individual more imaginative. When you read this Derrida for Architects (Thinkers for Architects), you can tells your family, friends as well as soon about yours guide. Your knowledge can inspire different ones, make them reading a e-book.

**Michael Vines:**

Your reading 6th sense will not betray you actually, why because this Derrida for Architects (Thinkers for Architects) publication written by well-known writer who knows well how to make book that can be understand by anyone who all read the book. Written throughout good manner for you, dripping every ideas and publishing skill only for eliminate your hunger then you still skepticism Derrida for Architects (Thinkers for Architects) as good book not merely by the cover but also by the content. This is one book that can break don't evaluate book by its deal with, so do you still needing a different sixth sense to pick this kind of!? Oh come on your reading sixth sense already said so why you have to listening to a different sixth sense.

**Terry Speller:**

As a pupil exactly feel bored to be able to reading. If their teacher requested them to go to the library in order to make summary for some reserve, they are complained. Just very little students that has reading's spirit or real their hobby. They just do what the instructor want, like asked to the library. They go to right now there but nothing reading very seriously. Any students feel that examining is not important, boring and also can't see colorful pictures on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this period, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this Derrida for Architects (Thinkers for Architects) can make you truly feel more interested to read.
