**Diagnostic Pathology: Nonneoplastic Dermatopathology** By Clay J. Cockerell MD, John C. Hall MD, Brian J. Hall MD

**Diagnostic Pathology: Nonneoplastic Dermatopathology** is the only image-heavy pathology or dermatology textbook to focus solely on nonneoplastic dermatopathology. This complicated field can be difficult for even practicing pathologists to master. However, with this groundbreaking book it will become much easier. This handsome 438-page volume is the ideal reference for skin pathology for the practicing pathologist and dermatologist.

Written by expert authors, this book covers carefully analyzes over 150 diagnoses in concise bulleted text that highlights the most significant diagnostic factors. Each diagnosis includes definitions, terminology, etiology, pathogenesis, demographics, clinical presentations, therapy, prognosis, gross and microscopic pathology, differential diagnoses, and special studies including immunohistochemistry and molecular/genetics.

Accompanying the diagnoses are over 1,085 stunning medical images, including clinical images, gross pathology, histology, and a wide range of special and immunohistochemical stains. Each image is carefully annotated to highlight the most diagnostically significant considerations.

Finally, this book features the classic benefits of all Amirsys titles, including time-saving bulleted text, Key Facts in each chapter, stunning annotated images, extensive index, and Amirsys eBook Advantage, an online version of the print book with larger images and fully searchable text.
