**Reached** By Ally Condie

**The thrilling conclusion to the *New York Times* Bestselling Matched Trilogy!**

**Perfect for fans of *1984*, *Brave New World*, *Black Mirror*, and *The Handmaid's Tale*.**

Cassia's journey began with an error, a momentary glitch in the otherwise perfect façade of the Society. After crossing canyons to break free, she waits, silk and paper smuggled against her skin, ready for the final chapter.

The wait is over.

One young woman has raged against those who threaten to keep away what matters most—family, love, choice. Her revolution is about to explode into full-scale rebellion. As an incurable plague sweeps through the Society, Cassia races to save both the lives and freedom of those she loves. With exquisite prose, the emotionally gripping conclusion to the international–bestselling Matched trilogy returns Cassia, Ky, and Xander to the Society to save the one thing they have been denied for so long, the power to choose.

## Editorial Review

From School Library Journal

Gr 7 Up-In this gripping and richly satisfying final book in this dystopian series, Cassia, Ky, and Xander recount in alternating chapters how they secretly find themselves working for the Rising, the group that's trying to overthrow the rigid and oppressive Society. In *Crossed* (Dutton, 2011), Cassia found Ky, the boy she's in love with but who's not her Match, after he disappeared into the Outer Provinces. He is now a pilot with the Rising. Cassia's back in Central working as a human computer algorithm sorting people into their Matches while secretly trading snippets of forbidden poetry with the Archivists and working to create a forum where people can openly share their art. Xander, Cassia's official Match, is an Officer and Physic in the Society, trusted with making sure that babies receive their immunizations but secretly replacing these pills with others that prevent disease and memory loss. When a plague created by the Society spreads out of control, Ky is asked to help fly cures into the impacted cities. The Rising is using this plague to show that they can save the people. Not everyone is immune to the plague and soon a pandemic breaks out, sickening many, including Ky. Unless Cassia, Xander, and Oker, a 90-year-old doctor who escaped being killed by the Society at age 80, can figure out a cure, the Rising will fail and the Provinces will fall apart. Fans who want closure will love this last book in the series that effectively combines action, romance, science, philosophy, and the arts.--Sharon Rawlins, New Jersey State Library, Trentonα(c) Copyright 2011. The uprising begins so quickly in the finale of Condie's *Matched* trilogy that Cassia, Ky, and Xander barely have enough time to register what is happening. Ky is still in the outer provinces, flying planes and waiting for orders. Cassia is now in the heart of the society, working as a sorter in Central and looking for clues that covertly signal the start of the rebellion. Xander works as a medical official and notes the beginnings of an outbreak: the plague that's been engineered by the leader of the Rising, the Pilot, which only the Pilot himself can cure. In this powerful series send-off, Condie ignites a race against the clock to find a cure and, along the way, tests the beliefs of her weary protagonists and studies the moral implications of biological warfare. Even through trials, the love triangle between Cassia, Ky, and Xander remains fiercely romantic, poignant, and heartrending. There is an expected happy ending tucked neatly into the aftermath, sure to gladden fans eagerly anticipating this thought-provoking climax. Grades 9-12. --Courtney Jones
