**Evidence of the Afterlife: The Science of Near-Death Experiences** By Jeffrey Long, Paul Perry

“There is currently more scientific evidence to the reality of near death experience (NDE) than there is for how to effectively treat certain forms of cancer,” states radiation oncologist Dr. Jeffrey Long in his groundbreaking new book *Evidence of the Afterlife*. In 1998 Dr. Long and his wife, Jody, began the Near Death Experience Research Foundation with the goal of creating a forum for near death “experiencers” to share their stories. Grounded in first-hand evidence culled from over 1,600 verified NDE accounts, *Evidence of the Afterlife* presents the strongest argument yet for the underlying truth of those who have died and returned to share their tales.

### Editorial Review

#### Review

“Dr. Jeff Long and journalist Paul Perry have done a phenomenal job in clarifying current events in the study of near-death experiences. Dr. Long’s work is leading us closer to a rational solution of the afterlife mystery.” (Raymond Moody, M.D., Ph.D., author of *Life after Life*)

“This important book about near-death experiences provides compelling evidence that mind and consciousness cannot be reduced to brain activity.” (Mario Beauregard, Ph.D., Neuroscientist at the University of Montreal and co-author of *The Spiritual Brain*)

“If someone asked for proof that life after death exists, refer them to this book. Dr. Long and Paul Perry have gone way beyond faith and into science, providing us with well-documented proof of what we have known absolutely for 35 years - there is life after death.” (Dannion and Kathryn Brinkley, authors of *Saved by the Light and Secrets of the Light*)

“Is there life after death? ...Radiation oncologist Dr. Jeffrey Long argues that if you look at the scientific evidence, the answer is unequivocally yes. Drawing on a decade’s worth of research on near-death experiences... he makes the case for that controversial conclusion.” (Time.com)

“Long answers skeptics . . . does a fine job of summarizing some of the transformative changes from NDEs.... The end result of all this testimony, according to Long, is ‘there is life after death.’” (Spirituality and Practice)

#### From the Back Cover

#### The Most Compelling Scientific Evidence for Life Beyond Death Ever Compiled

*Evidence of the Afterlife* shares the firsthand accounts of people who have died and lived to tell about it. Through their work at the Near Death Experience Research Foundation, radiation oncologist Jeffrey Long and his wife, Jody, have gathered thousands of accounts of near-death experiences (NDEs) from all over the world. In addition to sharing the personal narrative of their experiences, visitors to the website are asked to fill out a one hundred-item questionnaire designed to isolate specific elements of the experience and to flag counterfeit accounts.

The website has become the largest NDE research database in the world, containing over 1,600 NDE accounts. The people whose stories are captured in the database span all age groups, races, and religious affiliations and come from all over the world, yet the similarities in their stories are as awe-inspiring as they are revealing. Using this treasure trove of data, Dr. Long explains how medical evidence fails to explain these reports and why there is only one plausible explanation—that people have survived death and traveled to another dimension.

#### About the Author

Jeffrey Long, M.D., is a radiation oncologist in Houma, Louisiana, and has appeared on NBC's *Today Show*, ABC's *World News Tonight with Peter Jennings*, FOX's *The O'Reilly Factor*, and *The Learning Channel*.

Long has also served on the board of directors of the International Association for Near-Death Studies and established the nonprofit Near Death Experience Research Foundation and the NDERF website.

Paul Perry is an internationally bestselling author who has co-written nine books on near-death experiences.
