The Complete Guide to Building Your Own Tree House: For Parents and Adults Who Are Kids at Heart By Robert Miskimon

As children, many people dreamed of having a tree house, a place where they could get away to play and relax. Today, more and more people are making this dream a reality for their children, especially in the United States, England, Germany, France, and Brazil but it does not have to be just for children. (In fact, Corbin Dunn, 31, took up a permanent residence in a tree house in Santa Cruz, California for five years.) The Complete Guide to Building Your Own Tree House will show you how to create one of these sky-high getaways, whether it is a child's play area or an adult hideaway.

The oldest documented tree house is located in England on the grounds of Pitchford Hall and dates back to the 17th century. This proves that a tree house can be a lasting investment, especially if you choose the right tree and the right materials. This book will show you how to select a tree, prepare the tree, purchase the best materials, use the right tools, and buy lumber. You will learn about the tree house basics and the anatomy of a stable tree house, including four corners, diagonal support, sturdy flooring, a reliable ladder and railing, and a leak-proof roof.

In this book you will also learn about waterproofing, safety precautions, and building regulations and restrictions. You will be provided with design, building, and decorating tips, as well as non-technical drawings to aid you in the building process. You will learn about supports, windows, skylights, and tree house designs, such as shingled, two trees and two posts, and perch. Also included is an additional section on all the accessories you can add on to your house, like a ladder hoist, a fireman's pole, swings, a zip line, a pulley and basket, a crow's nest, a rope bridge, slides, and a trap door.

Whether you are building a tree house for your child or for yourself, The Complete Guide to Building Your Own Tree House will provide you with dozens of helpful tips, tricks, and suggestions from people who have already undertaken this endeavor. With the help of this book, your treetop hideaway will quickly

become a reality. The companion CD-ROM is included with the print version of this book; however is not available for download with the electronic version. It may be obtained separately by contacting Atlantic Publishing Group at sales@atlantic-pub.com

Atlantic Publishing is a small, independent publishing company based in Ocala, Florida. Editorial Review

Review

In the past few years, there has been a boom of interest in tree houses, but there are not many resources that show the average person how to build their own. This is where author Robert Miskimon and The Complete Guide to Building Your Own Tree House: For Parents and Adults Who Are Kids at Heart come in. In an easy-to-understand style, Miskimon covers all the bases from initial tree selection all the way to the final coat of paint. In between, nothing is left out. He covers safety, types of wood, fastener selection, and much more. That information alone is worth the price of this book. The Complete Guide to Building Your Own Tree House is a book you will want to keep close at hand while building. --Steven Chmielnicki, Artisan Tree & Treehouse, LLC --Steven Chmielnicki, Artisan Tree & Treehouse, LLC

Users Review

From reader reviews:

Mable Garza:

This The Complete Guide to Building Your Own Tree House: For Parents and Adults Who Are Kids at Heart book is not really ordinary book, you have it then the world is in your hands. The benefit you have by reading this book is definitely information inside this publication incredible fresh, you will get information which is getting deeper you read a lot of information you will get. This kind of The Complete Guide to Building Your Own Tree House: For Parents and Adults Who Are Kids at Heart without we realize teach the one who looking at it become critical in imagining and analyzing. Don't end up being worry The Complete Guide to Building Your Own Tree House: For Parents and Adults Who Are Kids at Heart can bring once you are and not make your case space or bookshelves' turn into full because you can have it in your lovely laptop even cellphone. This The Complete Guide to Building Your Own Tree House: For Parents and Adults Who Are Kids at Heart having good arrangement in word as well as layout, so you will not sense uninterested in

reading.

Joseph Wilson:

Information is provisions for those to get better life, information these days can get by anyone with everywhere. The information can be a expertise or any news even a concern. What people must be consider if those information which is in the former life are difficult to be find than now's taking seriously which one works to believe or which one often the resource are convinced. If you receive the unstable resource then you have it as your main information you will see huge disadvantage for you. All of those possibilities will not happen in you if you take The Complete Guide to Building Your Own Tree House: For Parents and Adults Who Are Kids at Heart as your daily resource information.

Christopher Jones:

As we know that book is significant thing to add our understanding for everything. By a reserve we can know everything we really wish for. A book is a pair of written, printed, illustrated or blank sheet. Every year was exactly added. This guide The Complete Guide to Building Your Own Tree House: For Parents and Adults Who Are Kids at Heart was filled regarding science. Spend your spare time to add your knowledge about your research competence. Some people has different feel when they reading the book. If you know how big benefit of a book, you can sense enjoy to read a publication. In the modern era like currently, many ways to get book you wanted.

Marylou Beauregard:

As a university student exactly feel bored to be able to reading. If their teacher inquired them to go to the library or even make summary for some book, they are complained. Just small students that has reading's heart and soul or real their passion. They just do what the instructor want, like asked to the library. They go to presently there but nothing reading seriously. Any students feel that examining is not important, boring and also can't see colorful photos on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore , this The Complete Guide to Building Your Own Tree House: For Parents and Adults Who Are Kids at Heart can make you feel more interested to read.
